

This beer showcases Worthy Garden Club's Hopservatory, which lets us experience the humbling beauty and diversity of space, while inspiring us to take care of our planet. This hybridized American Stout accentuates the subtle nuances of non-traditional ingredients, such as Bob's Red Mill Oats and milk sugar, which lend a smooth body with some residual sweetness. The whole Madagascar vanilla beans show mostly in the aroma.

## Lights Out Stout

*"This beer is just consistently awesome – truly a **Stout that defies seasons**"*

- Zach Brenneman, Head Brewer

## Look Up

Our ode to starry, starry nights. Hints of vanilla, coffee & nutty flavors with a creamy finish.
