Year-round

Package

12oz cans

Draft

13.2 Gallon, 1/6 BBL

Specs

4.8 % ABV
19 IBU

Worthy is proud of its solar powered craft beers, including Sol Power Pilsner. Worthy has 117 rooftop solar panels, and 56 of those are dedicated to heating water used in the brewing process, which helps Worthy operate more responsibly and sustainably. This pilsner gets its local flavor from our use of Mecca Grade malts and concentration of aroma hops. More lemon, citrus and grassy notes give this pilsner a familiar flavor.

"It's light and low alcohol— yet you still enjoy the flavor complexity of a great craft beer."

- Zach Brenneman, Head Brewer
